ALL HANDS LAB

CONSULTING / DELIVERY / TRANSFORMATION

Turning Strategy into Results.

Program & Project Management | Procurement Consulting & Delivery

Digital Transformation

We help organizations translate business priorities into practical solutions through expert consulting, disciplined execution, and technology-enabled transformation.

allhandslab.com

WHAT WE ARE HERE TO DO

Make complex change easier to deliver.

Organizations rarely struggle because they lack ambition.
They struggle when priorities, people, processes and technology must move together - and accountability becomes fragmented.

ALL HANDS LAB BRINGS THE PIECES TOGETHER

We help leaders translate strategic intent into coordinated action, practical implementation and confident operational transition.

THE CHALLENGES WE HELP ADDRESS

When execution needs a partner.

01

Complex initiatives

Multiple teams, shifting priorities and delivery dependencies.

02

Procurement friction

Disconnected sourcing, approvals, suppliers and purchasing flows.

03

Technology change

Systems and processes changing faster than adoption can follow.

Our role is to create clarity, establish ownership and help delivery move forward - with the right level of structure for each client engagement.

THREE CONNECTED CAPABILITIES

One partner.
Three ways to move forward.

01

Program & Project

Leadership and coordination for critical projects, programs, workstreams and milestones.

02

Procurement

Sourcing-to-payment process improvement and procurement technology-enabled delivery.

03

Digital Change

Business and technology alignment for modernization, integration, automation and adoption.

ENGAGE ONE CAPABILITY OR COMBINE THEM

We tailor the engagement to the business problem - not a fixed consulting package.

CAPABILITY 01

Bring control to critical initiatives.

From initial definition to operational handover, we support the leadership, coordination and visibility needed to keep work moving.

WHAT

Core support

Scope, planning and mobilization
Workstream and stakeholder coordination
Risks, decisions, budgets and quality

OUTPUT

What clients can expect

Delivery plans and ownership maps
Progress reporting and issue visibility
Go-live, closure and handover plans

CAPABILITY 02

Simplify procurement. Strengthen execution.

We connect the operating processes, business requirements and delivery activity behind effective procurement transformation.

S2C

Source-to-Contract

Sourcing, supplier evaluation, negotiation and contracting.

P2P

Procure-to-Pay

Requisitions, approvals, orders, receipts, invoices and payment.

S2P

Source-to-Pay

End-to-end coordination across the procurement value chain.

ALSO SUPPORTING

Platform implementation / Supplier enablement / Testing, rollout & early-life support

CAPABILITY 03

Technology change that works for business.

Technology delivers value when business processes, systems, people and operational readiness evolve together.

01

Modernize

Application modernization
ERP and business systems

02

Connect

Systems integration
Workflow automation

03

Prepare

Digital roadmaps
Cloud and AI readiness

Our focus: practical delivery, validation, adoption and sustainable handover.

FLEXIBLE ENGAGEMENT MODELS

Support that fits your delivery need.

01

End-to-end project / program delivery

From mobilization through coordinated execution, transition and closure.

02

Project or Program Management as a Service

Embedded or dedicated management support for defined initiatives and portfolios.

03

Implementation & transformation delivery

Business and technology coordination across implementation, rollout and adoption.

WHAT AN ENGAGEMENT FEELS LIKE

Clear ownership. Visible progress.

Every assignment begins with the business outcome and an agreed scope. We establish who owns what, what needs to happen next and how decisions, dependencies and delivery concerns will be surfaced.

CLARITY

Defined scope

Objectives, responsibilities and practical priorities.

VISIBILITY

Informed decisions

Milestones, dependencies, risks and reporting.

CONTINUITY

Operational readiness

Testing, adoption, transition and handover planning.

EXPERIENCE BEHIND THE FIRM

Built on experience. Focused on delivery.

Padmanabhan Doraisamy
Founder, All Hands Lab

22+ years across enterprise technology, program and delivery leadership, procurement, HCM and telecommunications.

Experience spans cross-functional teams, enterprise implementations, governance and technology-led business change.
